SAFETY DATA SHEET

1. Product and Company Identification

Product Name: 3% Silicone, Silicone Mist, Gold Label
Product Code: 113653, 113646, 113659, 113716
Product Type: Aerosol
Product Use: Mold Release

Manufacturer: IMS Company
Address: 10373 Stafford Road
          Chagrin Falls, OH 44023-5296
WEB www.imscompany.com

NOTE: The information contained herein is accurate to the best of our knowledge. We do not suggest or guarantee that any hazards listed herein are the only ones which exist. We provide this information as guidance for providing personal protection to your employees. The user has the sole responsibility to determine the suitability of the materials for any use and the manner of use contemplated. The user must meet all applicable safety and health standards. We provide this information as guidance for providing personal protection to your employees.

2. Hazard Identification

Classification of substance or mixture:

- Aerosols: Category 2
- Gases under pressure: Liquefied gas
- Skin Irritation: Category 2
- Specific target organ toxicity single exposure: Category 3 (Central nervous system)
- Aspiration hazard: Category 1

Pictograms:

- Signal Word: Danger
- H223: Flammable aerosol
- H280: Contains gas under pressure; may explode if heated
- H315: Causes skin irritation
- H336: May cause drowsiness or dizziness
- H304: May be fatal if swallowed and enters airways

Precautionary Statements:

Prevention

Response:

P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P211: Do not spray on an open flame or other ignition source.
P251: Do not pierce or burn, even after use.
P261: Avoid breathing mist, vapors, spray
P264: Wash thoroughly after handling
P271: Use only outdoors or in a well-ventilated area
P280: Wear protective gloves/protective clothing/eye protection/face protection.
P301+P310: If Swallowed: Immediately call a poison center or doctor
P331: Do not induce vomiting
P302+P352: If on skin: wash with plenty of soap and water.
P312: Call a poison Center/doctor if you feel unwell.
P304+P340: If Inhaled: Remove person to fresh air and keep comfortable for breathing.
P332+P331: If skin irritation occurs: Get medical advice/attention.
P362: Take off contaminated clothing and wash before reuse.
P403: Store in well ventilated place.
P405: Store locked up.
P410+P412: Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F
P501: Dispose of contents/container in accordance with local/regional regulations.

4. First Aid Measures

Eye Contact:

Flush with warm water for 15 minutes. Seek medical attention.
Skin Contact:
Wash with soap and water. Remove any contaminated clothing and launder before reusing. If irritation persists, seek medical attention.

Inhalation:
Remove exposed individual to fresh air, protecting yourself. Restore breathing if necessary. Contact a physician.

Ingestion:
Do not induce vomiting. Get medical attention immediately. DO NOT GIVE AN UNCONSCIOUS OR CONVULSING PERSON ANYTHING BY MOUTH!

5. Fire Fighting Measures

Flash Point: Flash point of propellant <0 degrees F.

Flammable limits in air, % by volume:
Upper: 18 % (VOL.) Gas in air (propellant portion)
Lower: 3.4 % (VOL.) Gas in air (propellant portion)

Extinguishing Media:
Dry chemical, carbon dioxide, halon, or foam is recommended. Water spray may be used to cool containers or structures. Halon may decompose into toxic materials and carbon dioxide will displace oxygen, take proper precautions when using these materials.

Unusual Fire & Explosion Hazards:
This material may be ignited by extreme heat, sparks, flames or other ignition sources (static electricity). Vapors are heavier than air and will collect in low areas (sewers) or travel considerable distances. If containers are not cooled in a fire, they may rupture and ignite.

Special Fire Fighting Procedures:
At elevated temperatures (over 130F) aerosol container may burst, vent or rupture; use equipment or shielding to protect personnel. Cooling exposed containers with streams of water may be helpful. Emergency responders should wear self-contained breathing apparatus. Wear other protective gear as conditions warrant. Keep unauthorized people out and try to contain spills or leaks if it can be done safely. Material will float on water, avoid spreading the fire.

6. Accidental Release Measures

Spill or Leak Instructions
Contain spill with dikes of soil or nonflammable absorbent to minimize contaminated area. Avoid run-off into storm sewers and ditches leading to waterways. If required, notify state and local authorities. Place leaking containers in well-ventilated area. Clean up small spills by using a nonflammable absorbent or flushing sparingly with water. Contain larger spills with nonflammable diking or absorbent. Clean up by vacuuming or sweeping.

Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind; keep out of low areas. Assess the spill situation, as the spill may not evolve large amounts of hazardous airborne contaminants in many outdoor spill situations. It may be advisable in some cases to simply monitor the situation until spilled product is removed.

7. Handling and Storage

Handling:
Store below 120°F in cool, dry area, out of direct sunlight and away from strong oxidizers. Do not puncture or burst. Use in accordance with good work place practices. Use with adequate ventilation. Keep containers closed when not in use. Always open containers slowly to allow any excess pressure to vent. Avoid breathing vapor. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Decontaminate soiled clothing thoroughly before re-use. Destroy contaminated leather clothing.

Empty containers may contain residues from the product. Treat empty containers with the same precautions as the material last contained. Do not cut, weld or apply heat to empty containers Do not incinerate

Storage:
Store in a cool, dry area, away from heat or direct sunlight. Keep containers closed when not in use. Do not store with incompatible materials

8. Exposure Controls / Personal Protection

Protective Equipment:
Use synthetic gloves if necessary to prevent excessive skin contact. Do not wear contacts and always use ANSI approved safety glasses or splash shield.

Engineering Controls:
General or dilution ventilation is frequently sufficient as the sole means of controlling employee exposure. Local ventilation is usually preferred. Use a NIOSH approved respirator if ventilation is not adequate to maintain exposures below TLV levels.
9. Physical and Chemical Properties

- **Appearance:** Clear mist as dispensed from aerosol can.
- **Evaporation Rate:** Ether = 1, Slower
- **PH:** NA
- **Initial Boiling point and boiling range:** NE
- **Flammability:** Flammable
- **Relative density:** NE
- **Partition coefficient:** NE
- **Decomposition temperature:** NE
- **Flammable limits in air, % by volume:**
  - Upper: 18% (VOL.) Gas in air (propellant portion)
  - Lower: 3.4% (VOL.) Gas in air (propellant portion)

- **Odor:** Negligible
- **Melting/Freezing point:** NE
- **Flash Point:** Flash point of propellant <0°F
- **Vapor pressure:** >30 psi
- **Vapor density:** >1 (Air=1)
- **Solubility:** Negligible
- **Auto-ignition temperature:** NE
- **Viscosity:** NA

10. Stability and Reactivity

- **Stability:** Stable
- **Conditions to Avoid:** Heat, spark, and open flame
- **Incompatibility:** Strong-Oxidizing Agents
- **Hazardous Decomposition:** Combustion will produce Carbon Monoxide, Carbon Dioxide and nitrogen-oxygen compounds.
- **Hazardous Polymerization:** Will not occur

11. Toxicological Information

- **Component Toxicological Information:**
  - **Light hydrotreated Distillate 68410-97-9**
    - Acute oral toxicity LD 50 Rat: > 5.17 g/kg
    - Acute Inhalation toxicity LC 50 Rat: > 5.2 mg/l 4 h
    - Irritation/Corrosion: skin – Edema Rabbit 1.89
  - **HFC-152a 75-37-6**
    - Oral ALD > 1500 mg/kg in rats
    - Inhalation ALC 4 hour: 383,000 ppm in rats

- **Dimethyl Ether 115-10-6**
  - Inhalation LC50: 164,000 ppm in rats 4 h

- **Acute dermal toxicity LD 50 Rabbit: > 2,000 mg/kg**
- **Irritation/Corrosion:** skin – Edema Rabbit 1.89
- **Specific target organ toxicity (single exposure):**
  - Category 3 narcotic effects
- **HFC-152a 75-37-6**
  - Oral ALD > 1500 mg/kg in rats

12. Ecological Information

- **Product Name:** IMS Silicone Sprays
- **Print Date:** 10/9/18
- **Product Code:** 113653 113646 113659 113716
- **Total pages:** Page 3 of 6
Toxicity to fish     LC50 / 96 h / Fish (unspecified species): 295,783 mg/l
Toxicity to aquatic invertebrates  
115-10-6
Toxicity to fish     LC50/96h/Poecilia reticulate (guppy): >4000 mg/l
Toxicity to aquatic invertebrates  
EC50/48 h/Daphnia: >4000 mg/l
LC50/48 h/Daphnia: 755,549 mg/l
Chronic toxicity to fish  
Due to its physical properties, there is no potential for adverse effects.

13. Disposal Considerations

Do not puncture or burn containers. Give empty, leaking, or full containers to disposal service equipped to handle and dispose of aerosol (pressurized) containers. Dispose of spilled material in accordance with state and local regulations for waste that is non-hazardous by Federal definition. Note that this information applies to the material as manufactured; processing, use, or contamination may make this information inappropriate, inaccurate, or incomplete. Note that this handling and disposal information may also apply to empty containers, liners and rinsate. State or local regulations or restrictions are complex and may differ from federal regulations. This information is intended as an aid to proper handling and disposal; the final responsibility for handling and disposal is with the owner of the waste. See Section 9 - Physical and Chemical Properties.

14. Transport Information

Aerosols (limited quantity), Class 2.1, ERG 126
AIR (IATA)
Aerosols (limited quantity), Class 2.1, ERG 126, UN No. 1950
Vessel
Aerosol (Limited Quantity), Class 2.1, UN No 1950

15. Regulatory Information

Environmental Regulations

SARA 302/304:
None

SARA 311/312:
Immediate (x) Delayed ( ) Fire (x) Reactive ( ) Sudden Release of Pressure (x)

Section 313
None

All the chemicals used in this product are TSCA listed.
Check with your local regulators to be sure all local regulations are met.

16. Other Information

Hazard ratings

This information is intended solely for the use of individuals trained in the NFPA and/or HMIS systems.

NFPA: Level 1 Aerosol
HMIS: Health: 2 Flammability: 4 Reactivity: 0
RATING: 4-EXTREME  3-HIGH  2-MODERATE  1-SLIGHT  0-INSIGNIFICANT

Note:
For industrial use only. The information contained herein is accurate to the best of our knowledge. We do not suggest or guarantee that any hazards listed herein are the only ones which exist. We make no warranty of any kind, express or implied, concerning the safe use of this material in your process or in combination with other substances. Effects can be aggravated by other materials and/or this material may aggravate or add to the effects of other materials. This material may be released from gas, liquid, or solid materials made directly or indirectly from it. User has the sole responsibility to determine the suitability of the materials for any use and the manner of use contemplated. User must meet all applicable safety and health standards. Possession of an SDS does not indicate that the possessor of the SDS was a purchaser or user of the subject product.
